

sedavital® sedalife®

NEW!

- ✓ Modular system for every requirement
- ✓ Optimal monitoring for sedations
- ✓ Touchscreen for visceral handling
- ✓ Patient profiles and software for documentation
- ✓ Pulse oximetry (SpO2 & pulse)
- ✓ Capnography (EtCO2-measurement)
- ✓ Blood-pressure measurement (NIBP)
- ✓ Temperature measurement (TEMP)

HINT!
Combine with
sedaview®
CO2 doublemask:
Integrate capnogra-
phy into the moni-
toring during a nitrous
oxide sedation!

PATIENT MONITORING – with sedalife® and sedavital® monitors by BIEWER medical:
To monitor the vital functions of your patients as exact and reliable as possible, we offer you valuable and modern patient monitors. The modular systems sedalife® and sedavital® can be combined as desired. Thanks to modern software, you may save patient profiles and document your monitorings.

Art. No.	Description
8833-SP	sedavital® Pulse SPO2 and pulse, incl. finger sensor
8833-SS	sedavital® Signs SPO2, pulse and blood pressure measurement (NIBP), incl. finger sensor and blood pressure cuff
8833-SSP	sedavital® Signs Premium SPO2, pulse, blood pressure measurement (NIBP) and Temperature (TEMP), incl. finger sensor and blood pressure cuff
8833-SC	sedalife® Capno SPO2, pulse and CO2 (Capnography), incl. finger sensor, CO2 sample line and filter
8833-SCP	sedalife® Capno Premium SPO2, pulse and CO2 (Capnography) and blood pressure measurement (NIBP), incl. finger sensor, CO2 sample line, filter and blood pressure cuff

Art. No.	Description
43034	sedaview® CO2 doublemask, size: adult, 12 pcs./package (Scents: mint, vanilla orange, bubblegum, unscented)
43037	sedaview® CO2 doublemask, size: pedo, 12 pcs./package, (Scents: bubblegum, orange, strawberry unscented)
5006F	Nafion filter for CO2, 1 pcs. (to be changed once a year)
CO2 LEITUNG LUER-LUER	Sample line for CO2 Measurement, 1 pcs.
5007SCA	Nasal cannula for CO2, 1 pcs.
NON 6191-001 / CUFF-S	Blood pressure cuff for children, small (18cm-26cm)

- ✓ Measurement of Oxygen saturation (%SpO2) and the heart rate (BPM)
- ✓ All models are suitable for spot-measurement and long-term measurement
- ✓ Only premium-class devices with partly 4-year warranty
- ✓ Only made in USA and made in Germany
- ✓ Exact and reliable measurements
- ✓ Safe even at low perfusion

Art. No.	Description
NON3230	NONIN Connect finger pulse oximeter with Bluetooth® Smart Wireless Technology, second screen via Apple® devices, data transfer via e-mail, for adults and children
NON9590	NONIN Onyx Vantage II finger pulse oximeter, 4 years warranty, for children and adults, colour: red, blue, violet or black
NON2500A	NONIN PalmSat 2500a handheld device with alarm feature. The ideal compact solution for ambulant monitoring, independent from the location of the patient
NON2500C-UNIV	Charging station for PalmSAT incl. NIMH-battery pack
NON2120	NONIN Avant 2120 pulse oximeter with NIBP-monitor for blood pressure measurement with warning-signal. Multi-function device for an efficient and demanding monitoring. A bracket is available separately.
NON 8000AP-3	Fingerclip-sensor for children
NON CUFF-S	Blood pressure cuff, slim, (18-26cm)

Art. No.	Description
436332	LifeSense II Pulse oximeter and capnography, Easy controllable via 17" touchscreen, USB-port, 36-h storage, KpA or mmHG Display switchable, incl. accessories.: T-connector, charger, soft sensor for adults, moisture trap, nasal cannulas for adults REF E4000: ideal for combined sedation with nitrous oxide!
NON RESP	RespSense II Capnography device, Easy controllable via 17" touchscreen, USB-port, 36-h storage, kPa or mmHG Display switchable, incl. accessories.: T-Connector, charger, moisture trap, nasal cannulas for adults REF E4000
